Any clarification submitted by a bidder with respect to its bid that is not in response to a request by the Procuring Agency shall not be considered. The Procuring Agency's request for clarification and the bidder's response shall be in writing. No change, including any voluntary increase or decrease, in the prices or substance of the bid shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the Procuring Agency in the evaluation of the bids, in accordance with ITB 30.
- 26.2 If a bidder does not provide clarifications of its bid by the date and time set in the Procuring Agency's request for clarification, its bid may be rejected.

## 27. Deviations, Reservations, and Omissions

- 27.1 During the evaluation of bids, the following definitions apply:
- (a) "Deviation" is a departure from the requirements specified in the bidding document;
  - (b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the bidding document; and
  - (c) "Omission" is the failure to submit part or all of the information or documentation required in the bidding document.

## 28. Determination of Responsiveness

- 28.1 The Procuring Agency's determination of a bid's responsiveness is to be based on the contents of the bid itself, as defined in ITB 10.
- 28.2 A substantially responsive bid is one that meets the requirements of the bidding document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:
- (a) if accepted, would:
    - (i) affect in any substantial way the scope, quality, or performance of the Goods and Related Services specified in the contract; or
    - (ii) limit in any substantial way inconsistent with the bidding document, the Procuring Agency's rights, or the bidder's obligations under the contract; or
  - (b) if rectified, it would unfairly affect the competitive position of other bidders presenting substantially responsive bids.
- 28.3 The Procuring Agency shall examine the technical aspects of the bid submitted in accordance with ITB 15 and ITB 16, in particular, to confirm that all requirements of Section V – Schedule of Requirements have been met without any material deviation or reservation, or omission.
- 28.4 If a bid is not substantially responsive to the requirements of the bidding document, it shall be rejected by the Procuring

Agency and may not subsequently be made responsive by correcting the material deviation, reservation, or omission.

- 29. Nonconformities, Errors and Omissions**
- 29.1 Provided that a bid is substantially responsive, the Procuring Agency may waive any non-conformities in the bid.
- 29.2 Provided that a bid is substantially responsive, the Procuring Agency may request that the bidder submit the necessary information or documentation within a reasonable period, to rectify nonmaterial nonconformities or omissions in the bid related to documentation requirements. Such omission shall not be related to any aspect of the price of the bid. Failure of the bidder to comply with the request may result in the rejection of its bid.
- 29.3 Provided that a bid is substantially responsive, the Procuring Agency shall rectify quantifiable nonmaterial nonconformities related to the bid price. To this effect, the bid price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component by adding the average price of the item or component quoted by substantially responsive bidders. If the price of the item or component cannot be derived from the price of other substantially responsive bids, the Procuring Agency shall use its best estimate.
- 30. Correction of Arithmetical Errors**
- 30.1 Provided that the bid is substantially responsive, the Procuring Agency shall correct arithmetical errors on the following basis:
- (a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail, and the line item total shall be corrected unless, in the opinion of the Procuring Agency, there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;
  - (b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail, and the total shall be corrected; and
  - (c) if there is a discrepancy between words and figures, the amount in words shall prevail unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.
- 30.2 Bidders shall be requested to accept the correction of arithmetical errors. Failure to accept the correction in accordance with ITB 30.1 shall result in the rejection of the bid and forfeiture of the bid security.

### 33. Evaluation of Bids

33.1 The Procuring Agency shall use the criteria and methodologies listed in this ITB and Section III – Evaluation and Qualification Criteria. No other evaluation criteria or methodologies shall be permitted. The Procuring Agency shall determine the most advantageous bid by applying the criteria and methodologies. The most advantageous bid is the bid of the bidder that meets the qualification criteria and whose bid has been determined to be:

- (a) substantially responsive to the bidding document; and
- (b) the lowest evaluated cost.

33.2 To evaluate a bid, the Procuring Agency shall consider the following:

- (a) evaluation will be done on itemized basis (contracts), as specified in the BDS; and the bid price as quoted in accordance with ITB 13;
- (b) price adjustment for correction of arithmetic errors in accordance with ITB 30.1;
- (c) price adjustment due to discounts offered in accordance with ITB 13.4;
- (d) converting the amount resulting from applying (a) to (c) above, if relevant, to a single currency in accordance with ITB 31;
- (e) price adjustment due to quantifiable nonmaterial nonconformities in accordance with ITB 33.3; and
- (f) the additional evaluation factors are specified in Section III – Evaluation and Qualification Criteria.

33.3 The estimated effect of the price adjustment provisions of the contract conditions, applied over the period of execution, shall not be taken into account in bid evaluation.

33.4 If this bidding document allows bidders to quote different prices, the methodology to determine the lowest evaluated cost of the package combinations, including any discounts offered in the letter of bid, is specified in Section III - Evaluation and Qualification Criteria.

33.5 The Procuring Agency's evaluation of a bid will include and take into account:

- (a) in the case of goods manufactured in the Procuring Agency's country, sales and other similar taxes, which will be payable on the goods if a contract is awarded to the bidder;
- (b) in the case of goods manufactured outside the Procuring Agency's country, already imported or to be imported, customs duties and other import taxes levied on the imported goods, sales and other similar taxes, which will be payable on the goods if the contract is awarded to bidder;

(c) any allowance for price adjustment during the period of execution of the contract, if provided in the bid.

33.6 The Procuring Agency's evaluation of a bid may require the consideration of other factors, in addition to the bid price quoted in accordance with ITB 13. These factors may be related to the characteristics, performance, and terms and conditions of purchase of the goods and related services. The effect of the factors selected, if any, shall be expressed in monetary terms to facilitate comparison of bids unless otherwise specified in the **BDS** from amongst those set out in Section III – Evaluation and Qualification Criteria. The criteria and methodologies to be used shall be as specified in ITB 33.2(f).

#### **34. Comparison of Bids**

34.1 The Procuring Agency shall compare the evaluated costs of all substantially responsive bids established in accordance with ITB 33.2 to determine the bid that has the lowest evaluated cost. The comparison shall be based of DDP (place of the final destination) prices for imported goods and EXW prices, plus the cost of inland transportation and insurance to the place of destination for goods manufactured within the Procuring Agency's country, together with prices for any required installation, training, commissioning and other services. The evaluation of prices shall consider custom duties and other taxes levied on imported goods quoted CIP and sales, and similar taxes levied in connection with the sale or delivery of goods.

#### **35. Qualification of the Bidder**

35.1 The Procuring Agency shall determine, to its satisfaction, whether the eligible bidder that is selected as having submitted the lowest evaluated cost and substantially responsive bid meets the qualifying criteria specified in Section III – Evaluation and Qualification Criteria.

35.2 The determination shall be based upon examining the documentary evidence of the bidder's qualifications record submitted pursuant to ITB 16. The determination shall consider the qualifications of other firms such as the bidder's subsidiaries, parent entities, affiliates, subcontractors (other than specialized subcontractors if permitted in the bidding document), or any other firm(s) different from the bidder.

35.3 An affirmative determination shall be a prerequisite for awarding the contract to the bidder. An adverse determination shall result in the disqualification of the bid. In this event, the Procuring Agency shall proceed to the bidder who offers a substantially responsive bid with the next lowest evaluated cost to make a similar determination of that bidder's qualifications to perform satisfactorily.

- 36. Procuring Agency’s Right to Accept Any Bid and to Reject Any or All Bids** 36.1 The Procuring Agency reserves the right to accept or reject any or all bids and annul the bidding process at any time before awarding the contract without incurring any liability to bidders. - 28.1 The Supplier shall, subject to the Procuring Agency's compliance with GCC Sub-Clause 28.2, indemnify and hold harmless the Procuring Agency and its employees and officers from and against any and all suits, actions or administrative proceedings, claims, demands, losses, damages, costs, and expenses of any nature, including attorney's fees and expenses, which the Procuring Agency may suffer as a result of any infringement or alleged infringement of any patent, utility model, registered design, trademark, copyright, or other intellectual property right registered or otherwise existing at the date of the Contract by reason of:
- (a) the installation of the Goods by the Supplier or the use of the Goods in the country where the Site is located; and
- (b) the sale in any country of the products produced by the Goods. Such indemnity shall not cover any use of the Goods or any part thereof other than for the purpose indicated by or to be reasonably inferred from the Contract, neither any infringement resulting from the use of the Goods or any part thereof, nor any products produced thereby in

association or combination with any other equipment, plant, or materials not supplied by the Supplier, pursuant to the Contract.

- 28.2 If any proceedings are brought, or any claim is made against the Procuring Agency arising out of the matters referred to in GCC Sub-Clause 28.1, the Procuring Agency shall promptly give the Supplier a notice thereof, and the Supplier may at its own expense and in the Procuring Agency’s name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim.
- 28.3 If the Supplier fails to notify the Procuring Agency within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Procuring Agency shall be free to conduct the same on its behalf.
- 28.4 The Procuring Agency shall, at the Supplier’s request, afford all available assistance in conducting such proceedings or claim and be reimbursed by the Supplier for all reasonable expenses.

  - (b) the aggregate liability of the Supplier to the Procuring Agency, whether under the Contract, in tort or otherwise, shall not exceed the total Contract Price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment or to any obligation of the Supplier to indemnify the Procuring Agency with respect to patent infringement.

**30. Change in Laws and Regulation**

- 30.1 Unless otherwise specified in the Contract, if after the date of twenty-eight (28) days prior to the date of bid submission, any law, regulation, ordinance, order or bylaw having the force of law is enacted, promulgated, abrogated, or changed in the place of the Procuring Agency’s Country where the Site is located (which shall be deemed to include any change in interpretation or application by the competent authorities) that subsequently affects the delivery date and/ or the Contract Price, then such delivery date and/ or Contract Price shall be correspondingly increased or decreased, to the extent that the Supplier

has thereby been affected in the performance of any of its obligations under the Contract. Notwithstanding the foregoing, such additional or reduced cost shall not be separately paid or credited if the same has already been accounted for in the price adjustment provisions where applicable, in accordance with GCC Clause 14.

- 31. Force Majeure**
- 31.1 The Supplier shall not be liable for forfeiture of its performance security, liquidated damages, or termination for default if and to the extent that its delay in performance or other failure to perform its obligations under the Contract is the result of an event of Force Majeure.
- 31.2 For purposes of this clause, “Force Majeure” means an event or situation beyond the control of the Supplier that is not foreseeable, is unavoidable, and its origin is not due to negligence or lack of care on the part of the Supplier. Such events may include, but not be limited to, acts of the Procuring Agency in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions, and freight embargoes.
- 31.3 If a Force Majeure situation arises, the Supplier shall promptly notify the Procuring Agency in writing of such condition and the cause thereof. Unless otherwise directed by the Procuring Agency in writing, the Supplier shall continue to perform its obligations under the Contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.
- 32. Change in Orders and Contract Amendments**
- 32.1 The Procuring Agency may at any time order the Supplier through a notice in accordance with GCC Clause 7 to make changes within the general scope of the Contract in any one or more of the following:

  - (b) the method of shipment or packing;
  - (c) the place of delivery; and
  - (d) the Related Services to be provided by the Supplier.
- 32.2 If any such change causes an increase or decrease in the cost of, or the time required for, the Supplier’s performance of any provisions under the Contract, an equitable adjustment shall be made in the Contract Price or the delivery/ completion schedule, or both, and the Contract shall accordingly be amended. Any claims by the Supplier for adjustment under this Clause must be asserted within twenty-eight (28) days from the date of the Supplier’s receipt of the Procuring Agency’s change order.
- 32.3 Prices to be charged by the Supplier for any Related Services that might be needed but which were not included in the Contract shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the Supplier for similar services.
- 32.4 **Value Engineering:** The Supplier may prepare, at its own cost, a value engineering proposal at any time during the performance of the

Contract. The value engineering proposal shall, at a minimum, include the following;

- (c) a description of any effect(s) of the change on performance/functionality.

The Procuring Agency may accept the value engineering proposal if the proposal demonstrates benefits that:

- (a) accelerates the delivery period; or
- (b) reduces the Contract Price or the life cycle costs to the Procuring Agency; or
- (c) improves the quality, efficiency or sustainability of the Goods; or
- (d) yields any other benefits to the Procuring Agency without compromising the necessary functions of facilities.

If the value engineering proposal is approved by the Procuring Agency and results in:

- (a) a reduction of the Contract Price; the amount to be paid to the Supplier shall be the percentage specified in the PCC of the reduction in the Contract Price; or
- (b) an increase in the Contract Price, but results in a reduction in life cycle costs due to any benefit described in (a) to (d) above, the amount to be paid to the Supplier shall be the full increase in the Contract Price.

32.5 Subject to the above, no variation in or modification of the terms of the Contract shall be made except by a written amendment signed by the parties.

**33. Extension of Time**
